

# NAT W:RK

Net-Zero self-adaptive activation  
of distributed self-resilient augmented services

## ABOUT

Stream:	STREAM-B-01-04
Project start:	1.1.2024
Duration:	36 months
Total cost:	€ 3.828.075,00
EU contribution:	€ 3.628.007,50
Total Partners:	14

This project has received funding from the European Union's Horizon Europe research and innovation programme under the Grant Agreement No 101139285

## VISION

The ambition of the NETWORK project is to set the foundations and deploy the very first **economically realistic, energy efficient and viable bio-inspired AI-based 6G cybersecurity and resilience framework** for intelligent networking and services, taking a *holistic approach* and considering all elements in a cross-sector business environment to **address the diverse requirements and challenges that arise.**
